Setting Up Lawn and Fertilizer Applications in Aspire

Fertilization is the process of providing essential nutrients to plants or soil to promote healthy growth and optimal yield. It involves applying fertilizers that contain key elements like nitrogen, phosphorus, and potassium, which are vital for plant development.

To effectively manage and execute fertilization tasks using the Aspire software system, follow these steps:

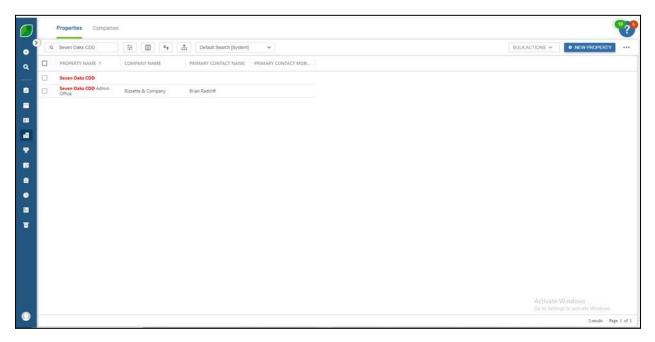

Step 1

Login to Aspire using your credentials.

Welcome Back!	
aspire A ServiceTitan Company	
Email Enter your email address & Password Enter your password	
Log is with PIN7 Forgot Password > LOG IM	

Step 2

Click on **Properties** and enter the property address for which the opportunity is to be created. Select the specific property where the fertilization job needs to be performed.

Step 3

Once you have selected the correct property address, click the **NEW OPPORTUNITY** button and select the template that reflects the services that need to be added, such as 'Turf Fertilization' or a related service.

Step 4

A new opportunity will be created based on the template selected. Fill in the necessary details like due date, anticipated close date, and start and end dates. Click on the three dots in the upper right corner to provide specifics about the fertilization services requested and create an estimate and add all details and values relevant to the services.

												Estimator Notes	

By following these step-by-step instructions within the Aspire system, you can efficiently create opportunities, generate estimates, and capture all the relevant details to ensure successful execution of fertilization projects for the specified properties.

If you have multiple branches, you can select which will offer this service after creating the F&P Service in Aspire.

You can also decide if the service is recurring and if so, how often it should be provided to your customers. Additionally, Aspire allows you to specify the profit margins for each opportunity related to the F&P Service.

Process to Schedule work Tickets in Aspire

• Navigate to the **Schedule Board** and click on the **'Scheduling'** icon in the blue side menu.

•	To Do List			Activity All Issues	Opportunity New WO Opps	Customer

 There are two ways to schedule the first occurrence: either drag and drop it onto the Schedule Board if the route and start day are planned or utilize the scheduling assistant. Clicking on the Scheduling Assistant icon enables you to easily find routes. This can be especially beneficial when managing multiple routes to ensure sufficient crew hours for each job.

By following the process to schedule work tickets in Aspire and using the rescheduling option to dictate weekly/bi-weekly service, or days between work, you can effortlessly create opportunities, generate estimates, and schedule recurring services with accuracy.

Aspire's intuitive interface empowers you to customize service offerings, set profit margins, and establish recurring schedules tailored to the specific needs of each property, ensuring consistent and effective maintenance throughout the season.
